

# GRESCASA

## Mystique, High Technical Performance

*The Mystique.*

The 'Mystique' by Grescasa is an authentic replica of Indian Slate, whose strength lies in its representation of faces and patterns that differ so much to one another. There are 21 different textures that it is possible to get and results that always look different and are never repetitive. The collection adapts to any use, be it business or residential, wall coverings for kitchens, bathrooms or living rooms, or solutions for ultra sophisticated exteriors. It is the result of the first ever four-colour in-line digital printing system applied to ceramic products. Special inks are used

to decorate porcelain stoneware, floor and wall tiles, making it possible to produce an infinite number of unique items. This process offers total flexibility in the design and development of a product and enables the application of incredibly high definition graphics over the entire surface of the tile. The result is a coloured body porcelain stoneware range that perfectly reproduces the most prestigious natural stones, with three dimensional relief effects

and unique, richly coloured patterns, which also offer outstanding technical performance.

Available in sizes: 15x15 cm; 30.5x 30.5 cm; 45.5x 45.5 cm; 30.5x60.5 cm; 15 x 60 cm.
